

Office Visit Quick Reference Guide

For all visits with infants <6 months of age:

1. Conduct complete physical exam, including:
 - a. Ears
 - b. Intra-Oral
 - c. Face
 - d. Neck
 - e. Genitals
 - f. Buttocks
 - g. Torso
2. Document physical exam actions completed in chart

Only if an injury is discovered during physical exam:

1. Use ICD-10 code to document injury
2. Complete 5 components of psychosocial assessment:
 - a. Substance abuse
 - b. Intimate partner violence
 - c. Mental health issues
 - d. Past law enforcement involvement
 - e. Past children services involvement
3. Place call to child abuse pediatrician or CAC for consultation
4. Order skeletal survey
5. Pull chart for data entry
