$10 per ticket

Our new normal in Ohio created by the COVID-19 pandemic has impacted the lives of families, children and teens, while reducing access to resources people have typically used for coping. Stay-at-home orders, social distancing measures, changes in school schedules and reduction in extra-curricular activities have created the perfect storm for increased mental health issues and suicide in teens. Ohio AAP created the Store It Safe program to save lives by identifying teens with mental health concerns, providing appropriate interventions, and creating barriers to the most lethal means for suicide, like firearms and prescription medications, that can aid in this fatal action. Let’s work together to put a barrier between contemplation and action by providing the resources and educational tools necessary for healthcare providers and parents to reverse this fatal trend.
### Schedule of Events

**Friday, November 20, 2020**

**Exclusive member benefit:** **FREE registration in 2020!**

**CME/MOC Statements**

The Ohio Chapter, American Academy of Pediatrics (Ohio AAP) is accredited by the Ohio State Medical Association to provide continuing medical education for physicians.

The Ohio AAP designates this live activity for a maximum of 9 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the activity, with individual assessments of the participant and feedback to the participant, enables the participant to earn 9 MOC points in the American Board of Pediatrics’ (ABP) Maintenance of Certification (MOC) program.

It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABP MOC credit. MOC Part II credit will be entered into the CME data portal entitled PARS and will be shared electronically with the ABP within 30 days of the activity date.

**MOC Part II**

**Target Audience:** Pediatric or family medicine primary care, sub-specialists, hospitalists, general physicians, nurses, residents, medical students, psychiatrists, psychologists, law makers, community members, allied health and all other stakeholders in the safety and health of Ohio's children.

**Course Description:** This activity is designed to provide health practitioners with the most recent curriculum in teen suicide, vaping, obesity prevention, mental health, interconception care, state and federal advocacy. Practitioners will be given tools to help pediatric and adolescent patients grow to be healthy, resilient adults.
Learning Objectives

• Utilize depression screening and provide educational tools and resources to help families; including lock boxes for patients to safely store firearms and medications.
• Explain federal and state policy updates as impacted by the 2020 Election.
• Describe studies published over the last year that bring to light new evidence relevant to how patient care is provided to families in Ohio.
• Explain the dangers and health crisis of e-cigarette use with adolescents and families.
• Implement prevention strategies and treatment resources of e-cigarette use among adolescents.
• Define best strategies in understanding and counseling on feeding cues.
• Recognize the factors in determining a feeding strategy and establishing a feeding plan with caregivers.
• Improve knowledge of risks in pregnancy from smoking, maternal depression, birth spacing of less than 18 months, and low multivitamin with folic acid intake.
• Be prepared to discuss interconception care with families and refer to resources for improvement of behavioral risk factors.
• Utilize expert tips for contracting and financial planning.
