

# HOW TO PROPERLY WEAR, CARE, AND SANITIZE YOUR CLOTH FACE MASKS

#SafePedsHealthyKids

- Face masks should be washed daily or whenever soiled
- Use water & a mild detergent, dry completely & store in a clean container or bag

- Keep your face mask clean by cleaning hands with soap & water/alcohol-based hand sanitizers before putting on, after adjusting, or removing the mask
- Don't share your mask unless cleaned properly first

Visit <http://ohioaap.org/> or follow us on Facebook at AAP Ohio or on Twitter @ohpediatricians for more info!

- Be sure the mouth & nose are fully covered
- Face masks should NOT be worn by those under age 2, who have trouble breathing or unable to remove the mask without assistance
