

DROWNING PREVENTION PRACTICES TO KEEP YOUR CHILD SAFE

With families spending more time at home during the COVID-19 pandemic, it is important parents implement layers of protection to keep children & teens safe around water

1

Pool area should be completely enclosed

Pools should be surrounded by 4 sided fence and secured with a self-closing/self-latching gate

2

Wear Coast Guard-approved life jackets

All children and adults should wear a US Coast Guard-approved life jacket when in open water

3

Assign a water watcher

Assign an adult to pay constant attention, undistracted, to children in the water

4

Learn CPR

Adults and older children should learn CPR
