IS YOUR CHILD fully protected?
Now, more than ever, it is important you protect your children by making sure they receive all recommended vaccines. The American Academy of Pediatrics, Centers for Disease Control and Prevention and this office recommend all routine vaccines including HepB, DTaP, MMR and flu (annually, age 6 months & older).

IS IT SAFE FOR WELL VISITS AND VACCINES DURING COVID-19?

YES, we have implemented safety measures to ensure safe delivery, including:

- Screening patients for COVID-19
- Implementing face mask policies for adults and children 2 years of age or older
- Ensuring patients practice proper hand hygiene and cough etiquette
- Safety protocols for waiting rooms to limit exposure

CALL TODAY TO SCHEDULE AN APPOINTMENT!

If your child already received these immunizations or you now visit another practice, please contact us so we may update our records.

For more trusted information about immunizations, visit the Fast VAX Facts website at www.fvf.ohioaap.org. Visit OhioAAP.org for all child health resources.
