What do you need to know about suicide to keep you and your friends safe?

No matter who you are or where you’re from, you are never alone

Keep dangers that can be used to harm someone locked up

Sometimes people think about suicide when they are feeling sad, lonely, or hopeless

When you are feeling sad, hopeless, or alone, it is ok to talk to people about how you are feeling

Sharing your feelings with someone you trust is brave

Always treat a gun as if it is loaded

Only take medications as directed

If a friend is thinking of suicide:

ACKNOWLEDGE: Talk to them. Talking about suicide does not cause it, so don’t be afraid to ask

Care: Let your friend know how much you care about them

TELL: If a friend is thinking of harming themselves, tell a trusted adult
